Re: Doesn't MCHD have any doctors who will see me/new indigent care patients

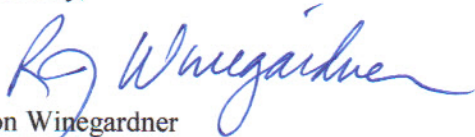

Dear Pat and Nita:

The other day when I was in the Emergency Room to get my blood pressure, diabetes and cholesterol medications refilled. Dr. Niziol told me that I should contact clinics in Dalhart and Stratford and Perryton to see if they would accept MCHD Indigent Care patients. However, your office previously told me that your program only covered Moore County. I believe your program should know this information - would you check into this for me before I come in for my upcoming appointment regarding January's eligibility? I can get a ride to Dumas on Friday and will come in then.

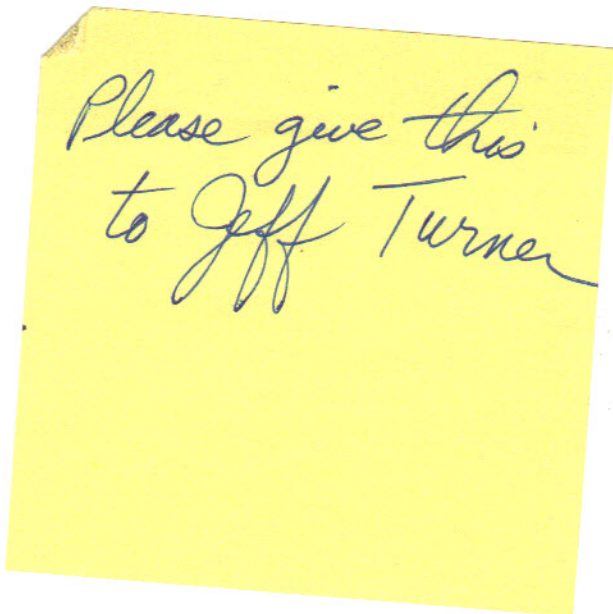

I believe I should have received this information from your office already, as on December 7 I sent your office a copy of a letter I sent to Dr. Sherwood in the Emergency Room, to which I have not received a response FROM ANYONE at MCHD. Dr. Niziol only refilled my prescriptions for 1 month so it is urgent that MCHD ICP find me a physician as soon as possible, as within about 2 weeks I will need to see a doctor again.

Thank you for your anticipated help in this matter.

Sincerely,

Ron Winegardner
