- Re: Complaint against President of the local Chamber of Commerce
1. Filing a false police report against me (attachment POTW.PDF)
  2. INTENTIONALLY LYING and libeling me in various correspondence
  3. Acting AGAINST national Chamber of Commerce principles by
    - A. Outsourcing to giant companies instead of my small business
    - B. Making healthcare more expensive than necessary (CREP.PDF)

Dear People:

At the US Chamber of Commerce website, I read articles about how the Chamber seeks to support American small businesses and also is interested in making healthcare more affordable. So why is the President of the Moore County Chamber of Commerce, Jeff Turner, acting against those principles by sending the local hospital's (of which he is the CEO) medical transcription to the United States' largest medical transcription service many states away instead of having a local small business (me – ZenTranscription.com) do the work, when he could also eliminate the unnecessary expense of a middleman and have the medical transcription done cheaper by the local hospital Medical Records Department?

I believe it is because I have requested an answer to these questions from him and the local hospital district Board of Directors that Mr. Turner filed a false police report against me with the local police department trying to keep me away from the hospital (see attached POTW.PDF). Amazingly the police department did not ask for any proof of his allegations, HAS NOT ANSWERED a single one of my MULTIPLE letters and allows a bogus Police Officer's Trespass Warning to remain on their records. AFTER the police report was issued, Mr. Turner concocted a pretext for his warning and sent an undated letter (postmarked several days after the POTW) alleging me with "increasingly harassing and intimidating behavior" which I have asked him to document, because there is none.

I will keep this letter to 1 page and look forward to your reply.

  
Ron Winegardner
