

would you please give this to
Gayle Stowers?

Ms. Stowers,

I am a medical transcriptionist
with 16 years experience who offered to
do transcription for your hospital, but
the medical records director tells me
to talk to Spheris, the multinational
medical transcription service that
apparently does ALL of your hospital's
transcription, sending jobs to India

and the Philippines. Isn't your hospital interested in saving money by having me do the transcription cheaper OR EVEN training local Dumas residents to do the work so you keep the money in this community?

You can go to my website,
ZENTRANSCRIPTION.COM, for
details.

Thank you for your consideration.
